KUMO compact SDI routers are small and cost-effective, yet robust and reliable. KUMO supports full broadcast specifications over SDI, HD-SDI, and 3G SDI. KUMO routers are a perfect fit for any broadcast, production, or post production environment. Running Embedded Linux, KUMO routers are network ready and support powerful HTTP control and monitoring.

KUMO's internal webserver allows immediate installation, configuration, and operation with standard web browsers - without any additional software to buy or install. An optional 1RU networkable control panel (KUMO CP) can be used in stand-alone or networked configurations.

### Key Features

- SD, HD, 3G SDI inputs and outputs via BNC, SMPTE 259M/292M/424M Connections
- Automatic EQ and re-clocking
- Supports all ancillary data, including embedded Audio Inputs
- Reference via BNC, passive loop, PAL/NTSC color black or HD tri-sync
- 10/100/1000 Ethernet LAN
- Auto-detect Bonjour™/Zeroconf protocol provides ease of installation
- Embedded Linux OS with internal webserver for web browser control

### Kumo 1604

KUMO 16x4 Compact SDI Router  
(with 1 power supply)

List Price Fr. 2'305.00 (excl. VAT)

### Kumo 1616

KUMO 16x16 Compact SDI Router  
(with 1 power supply)

List Price Fr. 3'460.00 (excl. VAT)
