

17" & 24" Quad Split Monitors

- AJA

- Apple

- AVC Solution

- Bittree

- JL Cooperer

- **Kroma Telecom**

- Miranda

- Nevion

- Omnitek

- Polatis

- ROSS Video

- Telestream

The new KROMA QS series is based on two models in 17" and 24". With 8 PAL/SD/HD-SDI auto-sensing inputs and 2xDVI inputs, the monitors can work as video preselectors, with the possibility of selecting among the available signals with the front panel controls. Additional features such as In-monitor displays (IMD), VU-metres and configurable dynamic tally and LTC are also included.

17" Monitor 1280x768 16:9

- 6 U high
- Contrast: 600:1
